

PRODUCTION

A large event space with a stage and audience. The stage is illuminated with blue and purple lights, and the audience is seated at tables. The background features a large screen displaying a grid of data or charts. The overall atmosphere is modern and high-tech.

Although a blank canvas space, offering extraordinary flexibility, Evolution London is a venue which provides an unrivalled level of high spec production kit as standard, in partnership with our technical partner Hawthorn.

PRODUCTION SPECIFICATION

The following technical specification is included in your venue hire fee:

- External LED lighting to the front of the building and the 'grassy knoll'
- Architectural LED lighting to the atrium roof space
- LED colour wash to the atrium and mezzanine areas
- Colour changeable LED starcloth roof
- LED room wash throughout the main event space
- Distributed audio system for background music, announcements and reinforcement of a larger 'event' system
- Drape dividing the mezzanine and main event space
- Black drape walls to main space

The following standard technical items are available in the venue for all events at additional cost:

- Pinspot lighting to tables
- Access to comprehensive ArtNet installation throughout the venue
- Lighting socapex and power feeds – both dimmed and 'hot' power
- Drape divide between bar and dining space
- Electrical supplies throughout the venue

If you wish to bring in your own Production Company you may do so. The below buy out fee applies:

RIG OR DE-RIG DAYS 1-4	RIG OR DE-RIG DAY 5 ONWARDS	EVENT DAY
£1,500 EX VAT PER DAY	£750 EX VAT PER DAY	£3,000 EX VAT PER DAY

We charge the nominated production company a 10% commission on the total technical production spend - please inform your production company of the commission charge. Hawthorn will provide all in-house and rigging services for the event.
